

▶ Non-resident and Embassy Banking

**World-class banking
solutions for foreign-owned
businesses with local
interests.**

For international investors looking to invest locally.

If you're looking to bank in South Africa while living in another country, look no further. We offer unique, world-class banking and investment solutions for international clients.

Expertise in business banking

We cater for the specific requirements of embassies and their consulates, foreign-registered companies, as well as Section 21 companies, offering the following:

- fully functional rand or foreign currency business accounts;
- secure electronic banking via NetBank Business, which enables you to transact easily on behalf of your embassy or foreign-registered entity, and is ideal for capturing sets of transactions for payments, collections or transfers;
- Cash to Master, available via a foreign currency account (euro, pound or dollar), to pay employee wages or goods and services; and
- specialised support when you need it.

Our business banking specialists will gladly help you with:

- merchant devices or services to suit your needs;
- forex services (in line with exchange rulings) for employees who have to travel; and
- property and equipment finance.

Trade and investments

Manage your cross-border payments and documentary trade products digitally with the help of exchange control and treasury specialists. You also get the following:

- access to NedTreasury, a secure digital channel that gives you desktop access to foreign exchange dealings, inward and outward cross-border payments, and documentary trade products;
- access to exchange control consulting services; and
- investment options at preferential interest rates.

We are authorised to act as a dealer in foreign exchange, and our team of specialists can offer the best exchange control consulting services and advice on non-resident accounts, including the following:

- exchange control and banking consulting services;
- online transactional self-service via our Money app and Online Banking platform;
- personal service through a dedicated relationship manager.

Banking for your employees

To ensure that your employees feel right at home, we offer a private banking experience with banking solutions to make their lives easier.

Non-resident and Embassy Banking.

At Nedbank, we understand the importance of exceptional banking and investment products for non-South African citizens. That's why we offer tailored banking and investment solutions to:

- foreign-owned businesses in South Africa and their employees and their households;
- embassies, consulates and non-governmental organisations (NGOs);
- offshore investors; and
- South African individuals who are abroad temporarily or emigrating.

While taking care of your local interests to help you and your money thrive in South Africa, we offer you:

- a dedicated relationship banker;
- specialist service centres; and
- expert exchange control consultants.

World-class banking solutions for foreign-owned businesses with local interests.

Relationship bankers are available to answer any questions
or to arrange an online consultation.
